KILLED IN ACCIDENT.

Engineer of San Marcos Light Plant Victim of Accident.

San Marcos, Texas, July 1.—As a result of an accident caused by the explosion of the flywheels last night about 9 o'clock at the power station of the San Marcos Utilities company, one man is dead and another is seriously, though not fatally, injured. C. H. Russell, night engineer, was struck in the abdomen by a piece of

flying fragments, and died a few hours later. The injured man is Alfred Wendt, night oiler at the power station. He was struck about the neck and shoulders with flying missiles and considerably bruised, but will recover.

The accident was caused, it is thought, by the slipping of a belt from the drive wheel of an accessory engine used for supply work at the station and from failure of the proper action of the engine's governor. The machine raced, resulting in practically wrecking it completely. The flywheels burst and parts were driven through the roof, walls and floor of the building. It is supposed that the engineer and oiler were going to stop the engine at the time they met their fate. The governor of the engine was tested only a few weeks ago and found all right.

Mr. Russell came to this city about six months ago, and had held this position since that time, having proven an efficient employee. He is survived by his wife, who was in Dallas at the time of the accident, and who arrived here this afternoon.

The stomach and liver must be restored to a healthy condition and Chamberlain's Stomach and Liver Tablets can be depended upon to do it. Easy to take and most effective. Sold by Bratton Drug Co.
